

To remain competitive organizations have to minimize costs in all areas of activity. With emphasis you achieve this cost saving whilst maintaining or even improving quality and without any increase in working capital.

Emphasis approaches cost reduction efforts with the following methodology:

- Analysis of the current situation
- Identification of strategic cost drivers
- Prioritizing cost-reduction opportunities e.g. in administration
- Target costing
- Make or buy analysis
- Adopting recommendations together with the client
- Design and implementation of a cost management reporting process to secure the on-going performance of the cost reduction
